- **1st to 4th Year Apprentice**

West-Can Seal Coating Inc. (WCS) is a privately owned highway maintenance company specializing in pavement preservation and roadway construction across Western Canada for almost 40 years completing contracts across Alberta, Saskatchewan and Manitoba for both public and private sectors.

As one of the largest pavement preservation companies in Western Canada, WCS operates offices located in Didsbury and Bruderheim (Alberta) and Brandon (Manitoba). These divisions provide services in asphalt milling, pulverizing, grading, various pavement preservation services along with liquid asphalt manufacturing. For more information on the company, please visit www.west-cansealcoating.com

WCS is always looking for good people. Whether you're a veteran to the industry or just starting your career, your contributions will be valued and your hard work will be rewarded. As our workforce continues to build Western Canada's infrastructure, WCS strives to provide our employees with a first-class working experience, including:

- A strong commitment to safety in the workplace
- Competitive wages, benefits, RRSP's, tool allowance, and safety bonuses
- Ongoing career development

Job Overview

Our peak season is late May through early October and project locations are anywhere between Alberta and Manitoba. This position will support our team in both the shop and in the field, with the responsibility of effectively performing maintenance and service on our fleet of equipment and vehicles. The expectation is to work remotely on the road during our peak season; extended hours of work and overtime will be required. During the off season (October to May), this position will be located in Didsbury, Alberta. The successful candidate shall be physically fit and a hardworking team player who recognizes the value of work place safety.

Day to Day Responsibilities

- Inspect and maintain equipment.
- Diagnose and repair malfunctioning equipment.
- Maintain equipment as required by equipment manufacturer and company safety program.
- Keep record of and track all repairs and parts invoicing.
- Prioritize repair and maintenance requirements.
- Assist in safe operation of equipment.
- Lock out and tag out defective equipment and inspect equipment for safe operation.
- Report to site supervisor, owner/management.
- Maintain shop tools and report any missing or damaged.
- Maintain own tools.

Heavy Duty Mechanic Apprentice

Working Conditions & Physical Requirements

- You will be required to work through various weather elements.
- You will be required to work long hours away from home during peak season (May to October).
- You will be required to lift 70 pounds.

Education and Experience

- Minimum two (2) years of previous experience.
- Valid Red Seal journeyman heavy-duty mechanic certification required.
- CVIP required.
- Excellent verbal and written communication skills.
- Current Class 5 driver's license; Class 1 or 3Q preferred.
- Able to provide a 5-year commercial drivers abstract with fewer than 6 demerit points and be insurable.
- Self-starter.
- Strong ability to multi-task.

While we appreciate all applications, only those candidates selected for an interview will be contacted.

All applicants are required to successfully meet all post-offer and pre-employment fit for duty requirements, which includes drug and alcohol screening.
